

Seatpost - SP17-NCX

SKU	3010000428
EAN	5608554018097

Seatpost compatible with BEEQ models C800 | E800 | M500

The saddle suspension system, like the SR Suntour SP17-NCX, utilizes a parallelogram design that offers impressive responsiveness by indirectly transferring weight to the suspension piston. During compression, the seat post head not only moves downward but also slightly backward, providing a subtle offset. Durable stainless steel bearings reduce friction and enhance longevity. This design ensures exceptional comfort on uneven terrain and effectively absorbs harsh impacts from potholes. As a result, the SR Suntour suspension seat post is an excellent choice for riders seeking a comfortable and back-friendly experience.

Technical Data:

Travel: 50mm

Design: dia. 30.9 w/ 25mm setback

Note: Hard spring, soft spring, 350 or 400mm length

System: Parallelogram system

Suspension system: Internal Coil with preload adjust/steel bushing parallelogram

Features:

Preload adjust

Black & silver finish available

Spare springs hard/soft available

Optional safety cover

Seat clamp

Stainless Steel bushing
